MEN

ESSENTIAL WIND BODY II ESSENTIAL MEN

The Essential Wind Body is a super light and very compact foldable body, ideal as an extra layer on cool mornings with strong wind. Due to the windproof front, your upper body does not cool down due to the wind, while you do not overheat. This body makes the ideal solution for dressing according to the layering principle and makes sure you are visible in the dark. It is highly packable and easy to store when the temperature rises or the wind dies down. For safety, reflective elements have been added for extra visibility in dark conditions. For even more safety in traffic, this wind body is available with a reflective print. The 2-way zipper maximizes the freedom to move. The Wind Body folds easily inside its own back pocket, into a small package.

- Material: Super-light windproof
- Windproof and water repellent
- Breathable, elastic mesh back
- Full YKK 2-way zipper

ESSENTIAL WIND JACKET II ESSENTIAL MEN

This superlight and highly packable Wind Jacket is ideal for taking along during chilly mornings or windy afternoons. It preserves your core temperature, while also allowing for plenty of ventilation through the mesh back. Since it is water repellent, a short spell of rain is no problem for this garment. For safety, reflective elements have been added for extra visibility in dark conditions. The jacket folds easily inside its own back pocket, into a small package. The 2-way zipper offers extra room for movement.

- Material: Superlight, windproof
- Windproof and water resistant
- Full YKK 2-way zipper

ESSENTIAL TOPDRY RAIN JACKET ESSENTIAL MEN

An absolute innovation to make riding in the rain even more comfortable! The Topdry is made from a lightweight and stretchable fabric. The waterproof Poray 10.000 membrane is placed on the outside of the jacket. This makes it easy to shake off rain from the jacket. After the rain this jacket dries quickly because the water will not get through the membrane to soak into the fabric. Therefore, the inside of this rain jacket feels soft and smooth when wearing it directly on your skin.

- Material: Poray 10.000
- Breathable, windproof and waterproof
- Fully taped seams
- Pre-formed sleeves in cycling position
- Full waterproof zipper with camlock closure
- Reflective details

ESSENTIAL STORM BREAKER RAIN JACKET ESSENTIAL MEN

A jacket which is easy to carry and protects you against wind and rain showers. That is the AGU men Storm Breaker. To make it the perfect match between a wind and rain jacket, we used three compartments. The front panel is made of fabrics using the Storm Breaker membrane. This membrane forms a barrier against wind whilst remaining breathable. The back is made of fabric with the Poray membrane, which prevents water from getting inside, while perspiration damp is small enough to get out. A water resistant DWR coating is used all over the jacket. This coating makes water bead up and roll off the fabric easily. The highly packable design makes it easy to carry the jacket in your jersey pockets. The jacket folds easily inside its own back pocket, into a small package that can be closed with a zipper.

- Material: Stormbreaker DWR Polyester semi stretch
- Poray 10.000 back
- Active breathable membrane
- Wind proof and Water resistant
- Windproof sleeve insert
- Highly packable
- Full YKK zipper
- Reflective details

HIGH SUMMER BIBSHORT IV TREND MEN**

A figure hugging bibshort that is very comfortable and cools you down during your bike ride. Even when you stop cycling for a jump in the water you will be completely dry before you know it. Idea during even the hottest of days! Thanks to the Coldblack technology the black fabric reflects 80% of the warmth that is provided by sunrays. This means the bibshorts warms up noticeably less by the sun compared to a normal bibshort. Thanks to the technical fabrics this is the perfect summer bibshort. Bring on the sunshine!

- Material: 200gr Power Light Lycra (20% EA)

SIX6 SOLID MERINO JERSEY SS III SIX6 MEN

The Solid Merino jersey features a unique dyed wool that adds intensity to the colours and gives it a lush appearance. Besides possessing very breathable qualities for warm weather, the soft Merino wool also insulates well in colder situations, and dries quickly after a summer shower. Recycled materials have been used in this jersey as part of our Greensphere program. The updated design involving minimal branding merges the rich past with today's functionalities, such as a waterproof back pocket for your valuables. The use of 100% recycled polyester makes this high summer jersey a sustainable choice that contributes to a better environment.

- Material Merino Wool Polyester (35% EA)
- Made from recycled Greensphere Polyester
- Coldblack treatment reduces heat absorption
- Multi-panel pre-taped shorts
- Ultra flat lycra bias with bonded edge finished mesh
- Flatlock seams
- 65mm Laser-finished cuff with silicone gripper
- Black 320 pad

SIX6 BIBSHORT III SIX6 MEN

The bold design elements relating to our heritage may be a nod to the past, but these bibshorts are packed with the latest innovations and modern tech. The ultra-light 40% Elastane fabric has tickled down from the shorts we produce for Team Jumbo-Visma, and supplies exceptional compression and fit. Impaired with Coldblack treatment, these give outstanding UV-protection and keep you legs cool for longer. Coupled with our top of the range black 320 chamois, this is the bishort of choice for truly descending rider. The use of 100% recycled polyester makes this bibshort a sustainable choice that contributes to a better environment.

**PREMIUM
AERO BIBSHORT II PREMIUM MEN**

Taking performance to the next level, these Premium Aero bibshorts are the apex of cycling shorts technology. By implementing a higher percentage of elastane in the lycra, these shorts now offer more compression at a lighter weight. The compression supports muscles and bloodflow to enhance your performance, less seams mean more comfort, and the laser-cut grippers give the bibshorts that sharp edge every serious rider is looking for. It comes with the newly developed chamois, and provides excellent UV-protection in the summer thanks to the Coldblack treatment. As part of our AGU Premium Collection, this bibshort is a top-notch and innovative product.

- Material: 190gr/mt Lycra (35% EA)
- Coldblack treatment reduces heat absorption

**ESSENTIAL
VIGOR GLASSES**

The Vigor is the latest addition to our sunglass collection. Developed on special demand from the Team Jumbo-Visma riders, who want to ride with frameless sunglasses more often. Great looking, with a wide lens to optimize your vision on the bike without the distraction of a frame. This is the more budget friendly version of the Verve, that does not feature the HDII lens, but will nevertheless make for a great ride.

- Material: Grilamid TR90
- UV 400 lenses
- Anti-Fog treatment
- Anti-allergenic nose pads and temples
- Including storage case

**ESSENTIAL
PRIDE GLASSES**

This Pride glasses feature the exact same frame as the official Team Jumbo-Visma racing glasses, but other lenses. The Pride glasses have been developed for professional use by Team Jumbo-Visma and are therefore completely tailored to the most demanding use. Good glasses for every bike ride.

- Material: Grilamid TR90
- UV 400 lenses
- Anti-allergenic nose pads and temples
- Including storage case

**ESSENTIAL
GRIT HD GLASSES**

The Grit is an attractively priced pair of glasses that comes with multiple lenses for different light conditions, so you can always rely on an unobstructed field of view, wherever and whenever you ride. Versatile, strong and with a wide and unobstructed field of vision, the Grit HD always gives you a perfect view of the road or the trails during every ride throughout the year.

- Material: Grilamid TR90
- Available with UV 400 HD Anti Fog lenses
- Including sport lenses clear and yellow
- Anti-allergenic nose pads and temples
- Including storage pouch
- Adjustable nose piece

**ESSENTIAL
VERVE GLASSES**

The Verve is the favorite sunglasses of the pros of Team Jumbo-Visma, BEAT cycling and a many other cyclists. **ESSENTIAL
VIGAROUS HELMET**

This model in AGU's helmet collection not only has super-fast styling, but also has other fast characteristics that make it a true showpiece. For example, there are at least 26 ventilation openings for perfect cooling under all conditions and the Thorax weighs only 240 g.

- Double in-mould helmet extra strong and lightweight
 - 28 ventilation openings
 - Confor padding from a single piece, including insect net
 - Reinforced with internal Roll-Cage
 - Direct-Dial 2 system also adjusts in height
 - Weight: 240g
 - Complies with EN1078 standard

The Vigorous helmet excels through its aerodynamic profile. Its sleek appearance developed 100% in-house at AGU. Methane care has been taken in the development of this lightweight helmet, including details such as the unique use of Y-buckles and the use of intentionally oversized features. A contemporary look with heaps of attitude that does not skimp on the

- Double in-mould helmet: extra strong and lightweight
 - Aerodynamic profile design
 - 3 aeroventilated ventilation openings and 7 regular vents
 - Exposed internal cage
 - Direct dial system
 - Lightweight Y-Buckles and straps
 - Complies with the EN1078 standard

ESSENTIAL VIGAROUS HELMET MIPS

The Vigarous MIPS helmet shines through its aerodynamic profile and sleek appearance, developed 100% in-house at Muciculus. Care has been taken in the development of this helmet, including details such as lightweight T-buckles and oversized vents. Together with the integrated MIPS system, this provides a whole new level of increased reliability and protection. The Vigarous exudes a contemporary look with heaps of attitude that does not skimp on the performance or safety.

- Double in-mould helmet: extra strong and lightweight
 - Multi-Directional Impact Protection System (MIPS)
 - Aerodynamic profile design
 - 3 oversized ventilation openings and 7 regular vents
 - Exposed internal cage
 - Direct dial system
 - Light-weight Y-Buckles and straps
 - Complies with the EN1078 standard

ESSENTIAL
SUBSONIC HELMET

Our brand-new road helmet is the latest result of thorough innovation and development in close cooperation with UCI Eindhoven and professional riders. A state-of-the-art helmet in our collection combining the best in safety with lightweight technology. VENTURE ROLL BAG HANDLEBAR BAG VENTURE

Team Jumbo-Visma rider Wout van Aert asked us to make the perfect bike bag for his training rides, inspired by the classic AGU handlebar bags. This roll bag is a very practical bag to bring on every adventure. Whether you go bikepacking or just for a short ride, the big main compartment can hold all kind of necessities, such as cookies, gel, but a camera or phone as well. The main compartment can be closed with a water-repellent zipper. On the front several loops are added so you can easily attach a small light or other items. Two mesh pockets on each side of the bag keep small things like cookie wrappers nicely tucked away. Behind both mesh pockets a large 3M reflective logo is placed for enhanced visibility in traffic. For an even better visibility, the color way 'reflective mist' has a reflective overall print that ensures high visibility during the dark days. This bag is made of 100% recycled Greensphere polyester.

- Material: 100% Greensphere Polyester
- Highly reflective AGU logo (3M reflection)
- YKK (water repellent) zipper closure
- Side mesh pockets
- Water repellent DWR-coating

VENTURE BAR BAG HANDLEBAR BAG VENTURE

When Team Jumbo-Visma rider Robert Gesink came to us with the idea of a new bar bag, inspired by the classic AGU handlebar bags, we started designing it right away. Gesink is very enthusiastic and uses the bag to bring food and spare gloves, which saves room in the back pockets of his jersey. The main compartment of the bag is easily accessible from the top and holds a removable divider to organize everything you want to bring. Two mesh pockets are added to keep small items in place. On the front of the bag you can find a second pocket. The loops can be used to attach a light or other items to the bag. A large 3M reflective logo is added for enhanced visibility in traffic. For an even better visibility, the color way 'reflective mist' has a reflective overall print that ensures high visibility during the dark days. The bar bag comes with an adjustable shoulder strap, so you can easily carry it off the bike. This bag is made of 100% recycled Greensphere polyester.

- Green Sphere material recycled water-repellent Polyester
- High visibility by 3M reflection
- YKK (water repellent) zipper closure
- Inner side mesh pockets
- Inner divider
- Removable shoulder strap
- Usable as handlebar bag and as frame bag

VENTURE HANDLEBAR BAG VENTURE

Our Venture Handlebar bag is made from Greensphere water-repellent 100% recycled polyester with a roll-top construction that shields your gear from dirt and moisture. Attached solidly to the bars with a system of multiple straps, the pack offers valuable storage space without influencing the handling of your bike negatively. With the included spacers you create ample room for your cables and navigation, and the high quality 3M reflective elements guarantee visibility in low-light conditions. The color variant 'Reflection Mist' has a reflective overall print that ensures you are highly visible during the dark days.

- High visibility by 3M reflection
- Two external mesh pockets
- Mounts to either side of stem
- One handed opening and closure
- Spacers and straps with quick release buckles
- Compression straps

VENTURE SNACK-PACK VENTURE

This is the perfect companion for the hardy bike-travellers who are inclined to drink and eat while pedalling, or just want to store some extra food. Always within reach and easy to open one-handed, the Venture Snack Pack offers yet more storage space for bars, nuts, crisps or drinks, right there on your handlebars. The color variant 'Reflection Mist' has a reflective overall print that ensures you are highly visible during the dark days.

- Green Sphere material recycled water-repellent Polyester
- High visibility by 3M reflection
- Roll-top opening

**VENTURE
TOP-TUBE FRAME BAG VENTURE**

The Venture Top-Tube Bag is the perfect storage for items you want to keep within reach while being on the road. The zipper is easy to open with one hand, to offer quick access to your valuable such as your camera and phone, when you need them. Or use it to store a bag of food to keep munching on the go. The color variant 'Reflection Mist' has a reflective overall print that ensures you are highly visible during the dark days.

- Green Sphere material: recycled water-repellent Polyester
- High visibility by 3M reflection
- One handed zipper opening
- YKK (water-repellent) zipper closure
- Inner side mesh pockets
- Inner divider

**VENTURE
TUBE FRAME BAG VENTURE**

During long trips, or for carrying a tent or tar, the convenient and spacious Venture Frame Pack will prove itself an essential part of your gear. Making clever use of a modular system of straps, it quickly attaches to the top tube, and will easily fit most frames out there. A clever hydration port opens up the possibility to use waterpacks, and the robust Greensphere polyester is proven to be water-repellent and durable when it counts most. The color variant 'Reflection Mist' has a reflective overall print that ensures you are highly visible during the dark days.

- Green Sphere material: recycled water-repellent Polyester
- High visibility by 3M reflection
- YKK (water-repellent) zipper closure
- Hydration port

**VENTURE
SEAT-PACK VENTURE**

The Venture Seat Pack is an essential part of any bikepacking trip. Easily attached underneath your saddle, you won't even notice it there until you need your dry clothes or sleeping kit. The waterproof Dryliner Tech inner and roll-top construction will keep your gear clean and dry even in the most vile of conditions, so you can focus on finding the best possible routes. With its robust appearance and reinforced parts in critical places, this bag will continue to be serve for many trips to come. The color variant 'Reflection Mist' has a reflective overall print that ensures you are highly visible during the dark days.

PRIMOŽ ROGLIČ COLAB JERSEY SS MEN**

"We wanted to make something different, something that stands out, something cool that expresses who I am." These are the words of Primoz Roglic himself. The result is a striking and bold design, made in close cooperation with, and input from Primoz. Made in premium quality. Needless to say, we are very proud of the result. A very cool kit with a cycling jersey and bibshorts, which tells the story of Primoz in various ways. With attention to important events in his life, the values he promotes, and the Slovenian culture he represents.

TEAM JUMBO-VISMA
PREMIUM AERO BIBSHORT TEAM JUMBO-VISMA MEN

The official Team Jumbo-Visma Aero bibshort. Taking performance to the next level, these Premium aero bibshorts are the apex of cycling shorts technology. By implementing a higher percentage of Elasthan in the lyras, these shorts now offer more compression at a lighter weight. The compression supports muscles and bloodflow to enhance your performance. Less seams mean more comfort, and the laser-cut grippers give the blosions that sharp edge every serious rider is looking for. It comes with the breathable Black 320 chamois, and provides excellent UV-protection in the summer thanks to the Coldblack treatment. As part of our AGU Premium Collection, this bibshort is a top-notch and innovative product.

- Material: 190 g. Intense Lycra (34% EA)
- Coldblack treatment reduces heat absorption
- Laser finished legs
- Single panel prestaped shorts
- Ultra flat laser cut bibs with ventilation
- Reflective details
- Black 320 pad
- Official Team Jumbo-Visma Aero bibshort

TEAM JUMBO-VISMA
TONY MARTIN T-SHIRT TEAM JUMBO-VISMA

Tony Martin is a machine. No one spends more time on the front of the peloton than Der Panzerjäger. He cranks out his turns in the wind with metronomic efficiency and never seems to tire. He is the key man in Team Jumbo-Visma's road out. His time-trial routine is like clockwork. The thing is - he isn't a machine. He is just a really nice guy who works very hard to do his job well. Every morning, he gets up and does his best. He is meticulous about his equipment and his training. It's no wonder he is having such a long and successful career.

- Developed with Tony Martin
- Material: 100% Organic Cotton
- Neckline: round

Primož Roglič always wanted to fly. As a kid in his native Slovenia, he took up ski jumping. Soon, he was junior world champion. His best ever jump was 183 metres. Following a crash which forced him to put away his skis, he started cycling in 2012, at the age of 22. The next year, he joined the professional ranks. By 2016, he was racing for Team Jumbo-Visma and directly won a stage at the Giro d'Italia. In 2017, he won a stage at the Tour de France. The next year, he finished fourth overall. He won 13 races in 2019, finished on the podium at the Giro and took home the overall winner's jersey at the Vuelta. And in 2020 was even better, with winning the cycling Monument Liège-Bastogne-Liège and the overall and point classification of the Giro. He is a rockstar in Slovenia. Watching him soar up mountains in grand tours in the coming years is going to be fun.

- Developed with Primož Roglič

Material: 100% Organic Cotton

TEAM JUMBO-VISMA
ROBERT GESINK T-SHIRT TEAM JUMBO-VISMA

Robert Gesink made bike racing his career and he has had one heck of a good time of it so far. Victories at the Grand Prix Cycliste de Montréal and Grand Prix Cycliste de Québec, a stage win at the Vuelta, and top five overall at the Tour de France. We believe the countless contributions he has made to Team Jumbo-Visma's success. What keeps him going? The same thing that inspired him to race around his family's farm when he was a little boy: his love for the open road, which he loves to share.

- Developed with Robert Gesink
- Material: 100% organic cotton
- Neckline: round

TEAM JUMBO-VISMA
STEVEN KRUISWIJK T-SHIRT TEAM JUMBO-VISMA

A pure climber can dance over his pain limit. As the air thins and the summit nears, he can accelerate into oblivion, safe in the knowledge that he'll soon catch his breath and find strength in his legs once he eases off. It's a quality that can only be bred by spending long days riding fast in the mountains. Steven Kruijswijk is such a climber. Born and raised in Nuenen, in flat-as-a-pancake Brabant, he has made Monaco his home so he can train in the Alps' warthimes. At the 2019 Tour de France, he showed what he can do, by finishing on the podium. He's kept training, kept honing his attack. It will be a beautiful dance.

- Developed with Steven Kruijswijk
- Material: 100% organic cotton
- Neckline: round

TEAM JUMBO-VISMA
SEPP KUSS T-SHIRT TEAM JUMBO-VISMA

Cyclocrosser, time-trialist, sprinter, domestique, classics rider, champion...Wout van Aert refuses to be stuck in anyone else's categories. He is his own man. Be it at a muddy, wintertime cross in Belgium, an early-season training ride, or a Monument, his commitment to his sport is unmatched. In an unbelievable 2020 season he won both Milan-San Remo and Strade Bianche and he took two stages in the Tour de France. No one but Wout can tell Wout what he can or cannot do.

- Developed with Wout van Aert
- Material: 100% organic cotton

TEAM JUMBO-VISMA
BUTTEENAERTS T-SHIRT TEAM JUMBO-VISMA

One rider is a good time trialist, the other a specialist in the mountains. On the other hand, do not like to be pigeonholed. The work I did for Primoz Roglic in the Alps gave me almost as much satisfaction as the bunch sprints I won in the Tour de France. I take my chances and help the team where I can. They call it "Butenaerts, a hint to the literal Dutch translation for out of this world: butenhards!" This shirt is made from 100% organic cotton

- Developed with Wout van Aert
- 100% organic cotton
- Neckline: round

TEAM JUMBO-VISMA
RIDE YELLOW T-SHIRT TEAM JUMBO-VISMA

The Tour de France is the largest and most famous cycling round in the world. Every year the riders compete for the coveted yellow jersey. Enjoy the battle, the suffering, the escapes, the spectacular sprints, the tough mountain stages and the time trials for three weeks. In the second and third stage, the riders will immediately ride through the beautiful Champagne region. How many champagne bottles will team Jumbo-Visma be able to acquire this year? We are proud of our collaboration with Team Jumbo-Visma. We celebrate this with our casual clothing. A cotton shirt with a striking yellow print for the Tour de France.

TEAM JUMBO-VISMA
LA GRANDE BOUCLE T-SHIRT TEAM JUMBO-VISMA

La Grande Boucle, a tour with history and special stories. Working hard together with the team for three weeks. In the past, AGU has been present at the tour through the legendary Panasonic formation and with the successful Rabobank cycling team. A beautiful past at the highest cycling level. After these successful years, we are again connected to a Grande Boucle by Team Jumbo-Visma. A reason to enjoy the biggest cycling event of the year even more. Because we are so proud of the collaboration with Team Jumbo-Visma, we celebrate with our casual clothing. A cotton shirt with a "La Grande Boucle" yellow print for the Tour de France.
