

The image features a black rectangular logo in the top left corner with the text 'ALPINE PRO' in white. The background is a photograph of two hikers on a rocky mountain peak. One hiker is wearing a green jacket and dark pants, while the other is wearing a red jacket and red pants. They are standing on a rocky outcrop with some green shrubs. In the background, there are large, rugged mountains with patches of snow. The overall scene is bright and clear, suggesting a sunny day.

**SPRING | SUMMER 2020**

# ALPINE PRO SPRING | SUMMER 2020

ALPINE PRO company is a Czech market leader in the field of sports and outdoor clothing, accessories and shoes. The brand encompasses four distinct collections of OUTDOOR, SKI, PERFORMANCE and AUTHENTIC. Design and development closely adhere to current trends and rapidly respond to changes of market needs. Brand emphasis is placed on workmanship, functional materials, technical details and above all user comfort. The creative drive behind all collections stems from the company philosophy of a 'connection with nature'.

ALPINE PRO SPRING/SUMMER 2020 product composition is based on an emblematic product range that includes professional sportswear, multifunctional articles and casual fashion. The individual collections are presented in their characteristic colour tones and complemented by seasonal shades of blue (677 INDIGO BLUE), greens (587 OLIVINE) and (570 BLUE TURQUOISE), yellow (217 Mellow Yellow), orange (328 PEACH), pinks (419 CAMELLIA ROSE) and (421 TEABERRY), brown (123 STUCCO) and grey (768 MONUMENT).

OUTDOOR | The collection is dominated by distinctive surface prints in the form of camouflage and floral patterns. The colour palette is dominated by shades of dark green 587, blue 677 and Bordeaux 846, these are accented by vivid complementary colours composed of orange 341, red 344 and lush green 552. As a brand-new addition this season introduces functional MERINO wool shirts, the material properties of which are further enhanced by the addition of THERMO°COOLTM FRESH polyester. The cut of these shirts is designed to allow freedom of movement during any sports activity and the fabric protects the body from adverse weather conditions.

PERFORMANCE | This collection aims toward very lightweight and functional sportswear based on movement enhanced shaping, optimal materials and accessories. A Quick-drying 4WAY STRETCH material that is flexible in all directions is an outstanding new addition to the collection, its unique low weight and the way it is weaved ensures air permeability and rapid drying. The collection is based on a colour palette of vibrant neon colours (yellow 530, orange 341 and pink 452); not forgetting safety oriented reflective elements for increased visibility.

AUTHENTIC | The collection has pastel colour overtones of apricot 328, burgundy 893 and menthol 524; complemented by rich shades of bordeaux 846, indigo blue 677 and olive green 587. The main source of inspiration for this collection are elements of Japanese culture, primarily Japanese sashiko embroidery, sakura flowers and brush strokes. Linen dresses and shorts are a new addition valued for their excellent thermoregulatory material properties; linen also protects against UV rays and is resistant to mould. Additional new items include wrap dresses, maxi skirts and sweatshirts made out of reversible knitwear. ROSE GOLD metal details perfectly accessorize the ladies and girls line.

ALPINE PRO SPRING Collection/SUMMER 2020 includes a comprehensive range of accessories, socks, hats and scarves. Newly added specialty caps and hats are made out of a protective material that allows only 1/50 of total UV rays to penetrate to the skin.
