PELTONEN

NIS NORDIC
INTEGRATED
SYSTEM

Peltonen xc-ski is compatible with Rottefella NIS-system. Personalize your skis.

SUPRA X SKATE

Peltonen Elite skate ski with an improved Nomex Honeycomb Core construction combined with a reshaped tip and tail makes skiing more stable and relaxed. A stiffer front section of the ski increases gliding properties during uphill skiing. Core construction with a lower camber creates better glide in all snow conditions. This ski also comes with a new Fluor Free Nano High Speed base material that improves glide in higher speeds. The Supra X skate is also available with the Nano High Speed Wet base material for wet conditions.

Lengths	181, 188, 193
Base	Nano High Speed, NHS Wet
Profiles	Hard track Universal track Wet snow track
Flexes	Medium, Stiff
NIS plate	NIS 1.0

SUPRA X LW SKATE

The Peltonen LW collection provides World Cup level performance for junior skiers with many of the same top features found in the Elite and Racing collections. The Low Weight collection is available for skiers up to 55 kg.

Lengths	153, 160, 167, 174
Base	PRG 4100
Profiles	Universal
Flexes	Medium (153-174) Stiff (174)
NIS plate	NIS 1.0

INFRA X CLASSIC

Peltonen Elite classic ski for classic XC-skiing. An improved Nomex Honeycomb Core construction with higher profile gives more space for kick wax and less drag for better glide. In addition, the higher and more elastic wax pocket gives excellent, easier kick action without sacrificing glide. This ski comes with a new Fluor Free Nano High Speed base material which improves glide in higher speeds. The Infra X classic is also available with the Nano High Speed Wet base material for wet conditions.

Lengths	188, 195 , 202, 207
Base	Nano High Speed NHS Wet
Profiles	Universal / Cold Wet snow
Flexes	Medium, Stiff
NIS plate	NIS 1.0

INFRA X LW CLASSIC

The Infra X LW is a classic racing ski for juniors. The super light Aircell honeycomb core and PRG 4100 racing base guarantee excellent performance in various snow conditions.

Lengths	153, 160, 167, 174, 181
Base	PRG 4100
Profiles	Universal
NIS plate	NIS 1.0
Flexes	Medium (153-181) Stiff (174-181)

INFRA C CLASSIC

The Infra C classic comes with the same easy to ski construction as the WCR classic skis. Very elastic wax pocket - less kick power is needed to compress grip zone. There is also a lot of space for kick wax, which reduces drag and increases the gliding properties of the ski. A universal profile with a racing level base material works perfectly in most snow conditions. Wide range of flexes - available also for heavy weight skiers.

Lengths	188, 195 , 202, 207
Base	PRG 4100
Profiles	Universal
Flexes	Medium, Stiff, Stiff+
NIS plate	NIS 1.0

INFRA C LW CLASSIC

The Infra C LW is a great ski to start with for a classic skiing career. It includes an easy to ski kick pocket action with an air channel core and top quality PRG 4100 racing base to increase speed.

Lengths	146, 153, 160, 167
Base	PRG 4100
Profiles	Universal
NIS plate	NIS 1.0

Handmade in Finland

SUPRA C

SUPRA C LW

SUPRA C SKATE

The Supra C skate has several high end qualities that can also be found in the WCR skis. A low profile Aircell core with an improved tip and tail gives a very comfortable and stable skiing experience. The universal profile with a racing level base material works perfectly in most snow conditions. Flexes available in uniquely wide range - also for heavy weight skiers.

Lengths	174, 181, 188, 193
Base	PRG 4100
Profiles	Universal
Flexes	Medium, Stiff, Stiff+
NIS plate	NIS 1.0

SUPRA C LW SKATE

The Supra C LW is the first racing skate ski for the future champions. The high quality PRG 4100 base material helps to improve glide in all snow conditions.

Lengths	132, 139, 146, 153, 160, 167
Base	PRG 4100
Profiles	Universal
NIS plate	NIS 1.0

INFRA X SKIN CLASSIC

Infra X Skin is a kick wax free ski with full racing ski features. Build with the same top elements as other Peltonen WRC racing skis like Nomex Honeycomb Core Nano High Speed base material.

Lengths	188, 195, 202, 207
Base	Nano High Speed
Skin	Mohair Race
Profiles	Universal
Flexes	Medium, Stiff
NIS plate	NIS 3.0

INFRA C SKIN CLASSIC

Infra C skin is a perfect choice for all skiers with decent classic technic. Mohair race skin combined with dynamic working Nomex honeycomb core, gives excellent performance in all snow condition. With bit softer flex choise it also gives unique skiing experience for recetational skiers. Available also for heavy weight skiers.

Lengths	181, 188, 195 , 202, 207
Base	PRG 4100
Skin	Mohair Race
Profiles	Universal
Flexes	Medium, Stiff, Stiff+
NIS plate	NIS 3.0

SKIN PRO CLASSIC

Peltonen SkinPro is an excellent training ski for active skiers or even for racing skiers. This extremely popular ski is built with our special SkinPro Mohair kick waxless technology - it enables easy preparation and handling of ski and no need for kick waxing. SkinPro Mohair skin offer superior grip and glide in all snow conditions and temperatures. With the new MOVE binding you can set your preferred grip and glide. Racing series aircell construction and top quality graphite base.

Lengths	174, 181, 188, 195 , 202, 207
Base	PRG 4100
Skin	Mohair 100%
Profiles	Universal
Flexes	Medium, Stiff, XStiff
NIS plate	NIS 3.0

SKIN PRO LW CLASSIC

LW Lengths	153, 160, 167
Base	PRG 4100
Skin	Mohair 100%
Profiles	Universal
NIS plate	NIS 3.0

SKIN TRACK

SKIN TRACK CLASSIC

Peltonen SkinTrack is a good choice for recreational skiers to enjoy careless skiing in easy, low profiled tracks. High quality mohair skin gives a good grip in all snow condition. MOVE binding system gives a possibility to optimize you skis according to skiing condition, body weight and skiing technique - while skiing.

Lengths	181, 188, 195 , 202, 207
Base	PRG 4100
Skin	Mohair 100%
Profiles	Universal
Flexes	Medium, Stiff
NIS plate	NIS 3.0

ROTTEFELLA MOVE BINDING

Moving the binding on the ski is an effective and easy way to adjust the grip and glide. With the MOVE™ Switch, you can move the binding without removing the boot from the binding.

PELTONEN REPLACEMENT SKIN

The skin changing interval is about 1500-2000 km under normal conditions, the interval can be shorter under abrasive conditions.

Skin Pro Lengths (mm): 320, 384, 414, 444

ZENITH SKATE

ZENITH SKATE

The Zenith Skate is an excellent ski choice for active skating skiers. It comes with all of the racing ski features but in a reasonable pricerange. It is the lightest ski in its pricerange with the feeling of a race ski. A new core construction makes it well balanced and comfortable to ski on. The low camber profile with racing base material increases gliding properties in all snow conditions.

Lengths	174, 181, 188, 193
Base	PRG 4100
Profiles	Universal
Flexes	Medium, Stiff
NIS plate	NIS 1.0

ACADIA SKATE

Excellent quality at an excellent price: Acadia is the lightest ski in its price category. The performance of Acadia even meets the requirements of a World-Loppet skier. Stiffnesses up to 120 kg make the Acadia a good choice for a diversity of skiers.

Lengths	167, 174, 181, 188, 193
Base	PRG 3600
Profiles	Universal
Flexes	Medium, Stiff
NIS plate	NIS 1.0

ACADIA CLASSIC

A wide range of lengths and flexes makes Acadia a good training ski even for a World-Loppet skier. Stiffnesses up to 120 kg make the Acadia a good choice for a diversity of skiers.

Lengths	181, 188, 195, 202, 207
Base	PRG 3600
Profiles	Universal
Flexes	Medium, Stiff
NIS plate	NIS 1.0

NO KICK WAX, NO GLIDE WAX - PURE ENJOY.

G-GRIP. GRIP&GLIDE.

New wax-free G-grip is an evolution of the Nanogrip grip-and-glide coating.

It gives good grip and reasonable glide without any grip or glide wax. It is effective in all weather conditions, especially where grip waxing is normally very challenging - like coarse spring snow or glazed tracks. The new wax-free G-grip technology is ideal for low-speed recreational skiing.

FUSE R Classic

Easy to care G-grip ski for skiers with good classic technic. G-grip coating is in tip and mid part of the ski - waxable tail improves the glide. Made with light weight aircell core.

G-GRIP
GRIP & GLIDE
COATING TECHNOLOGY

Lengths	185, 195, 205
Base	G-Grip coating
Profiles	Universal
NIS plate	NIS 1.0

FUSE Classic

Just grab your skis and go - no grip or glide wax needed. Bit shorter, easy to handle ski is made for for beginners and recreational skiers. Made with light weight aircell core. Sold together Rottefella Basic automatic binding.

G-GRIP
GRIP & GLIDE
COATING TECHNOLOGY

Lengths	160, 170, 180
Base	G-Grip coating
Profiles	Universal
NIS plate	NIS 1.0

TAKING A G-GRIP SKI INTO USE!

Select a bit softer ski than your normal classic ski.

The grip is optimal right from the start. The ski optimizes its glide permanently when you ski for the first time.

This only takes a few kilometers.

While using the skis, the color alters from grey to black, which doesn't affect neither grip nor glide. On new-fallen snow, when temperatures are close to zero, it's recommended to use an anti-ice product made for G-grip or Nanogrip skis.

NEXT GENERATION OF SNOW LEOPARDS

PELTONEN **TIGER JR G-GRIP**

Easy-going Tiger for waxfree action! A premium junior ski with attracting graphics, woodcap construction, sintered base and G-GRIP coating for fun, waxfree performance. Available also with Rottefella Start bindings pre-installed. Lengths 100-160 cm / 10 cm.

G-GRIP
GRIP & GLIDE
COATING TECHNOLOGY

PELTONEN **SONIC STEP**
